

## 2-Axis Precision Mount

P/N: MNT-2 AXIS

### Applications:

- Positioning 90-Line for roll alignment
- Receiver positioning on tools
- Precision machine tool alignment
- Checking run-out straightness
- Roll and web and idler alignment
- Checking rail straightness and parallelism

### Features:

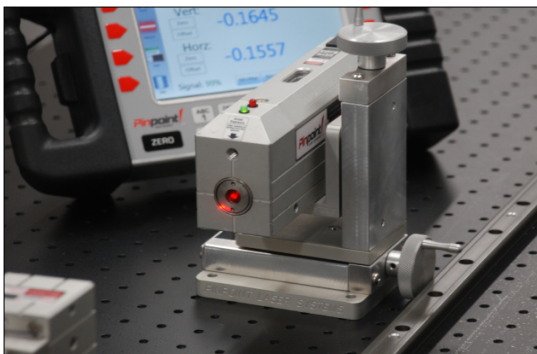

- Vertical range =  $\pm 1.50$ "
- Horizontal range =  $\pm 1.35$ "
- Mounting = 1/4-20 thd. thru-hole
- Weighs just under 4 pounds
- Smooth precise motion
- Made from anodized aluminum and stainless steel

### About the 2-Axis Precision Mount

This versatile mount provides accurate, linear control in two axes for Microgauge receivers, 90-Lines and other accessories. Two precise adjustment slides move the mounting plate in the X and Y axes (typically vertical and horizontal) although this mount can be positioned in any orientation.

The 2-Axis Precision Mount is made of solid aluminum with stainless components and will secure to tripods, machine tools and other equipment for a variety of projects.
